"I have begun to see the bigger picture and how this really does all fit together. NLP is no longer just an attitude, a methodology and a set of techniques – it is a whole system of communication and therapy." – Daniel Dobson-Smith, EuroStar

You will already enjoy the successes that being a NLP Practitioner bring. And yet you know, don't you that there is more.

Mastery of yourself is the vital difference between making up your own mind, or your mind making you.

With SCR Associates Ltd you truly master the attitude, skills and knowledge that takes NLP beyond the boundaries of communication and into the realms of absolute integration and application at each and every level. This is without a shadow of a doubt a life-changing transformation. So listen carefully, inside, and experience the sensation of knowing you're making the right choice choosing us as your guides and assistants.

Effective communication is fundamental to the success of organisations, yet is often the one area that is identified as being at the heart of problems. By applying NLP business communication skills a solid foundation of mutual trust and understanding of difference and diversity is developed that can show the way for more rapid forms of communication and will avoid typical misunderstandings. We know the secret that sets winners, top performers and high achievers apart from others is excellent communication skills. So join these examples of excellence.

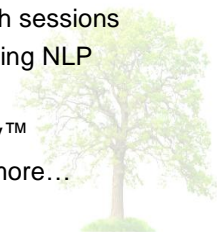

Begin to notice the exemplars of excellent behaviour around you. There are four projects as part of the exciting application and integration process. One of the projects is all about modelling excellence.

Completing the full modelling cycle enables you not only to enhance the models' experience, you get to enjoy the same results for yourself and then teach it on to others. Helping you to be the best they can be. Helping others to be the best they can be. Create a better world that people want to be part of, be proud of...

Before embracing your road to Mastery I wonder what it will mean to you, those close to you and those you work with. And it's a good thing to wonder this. Because when that happens you begin to focus your attention on what you would want out of this, what's your motivation driver?
